FAME

FAME is a joint effort of world-class experts in data management, data technologies, the data economy, and digital finance

ABOUT FAME

The FAME marketplace will alleviate the proclaimed limitations of centralized cloud marketplaces towards demonstrating the full potential of the data economy.

FAME's developments will be integrated in a single federated data marketplace platform, which will become (openly and publicly) accessible based on OpenAPIs. The platform will be operational in a federated cloud environment with multiple providers of different types of data assets, including datasets, AI/ML models, analytical insights and more.

FAME Objectives & Ambition

Federated Marketplace

Unified Data & Security Policy Management for Federated Services

Federated Data Catalogues based on Semantic Interoperability of EmFi Data Assets

Decentralized Programmble Data Assets Trading & Monetization (incl. Value Accrual in NFT)

Trusted, Privacy Friendly and Energy Efficient Analytics

FAME Training Programs & Learning Center

Novel Embedded Finance Use Cases

Funded by the European Union

This Project has received funding from the European Union´s Research and Innovation programme under grant Agreement no 101092639.

FAME

The kick-off meeting of FAME took place on 15-16 March in Rome
